## S U M M A R Y

Third year Computer Science student at Queen's University with a passion for design.  
Self-motivated and enthusiastic to gain skills and experience in industry!

## DESIGN EXPERIENCE

Fall 2020

### Goodreads IOS app Redesign

UI/UX design - Side Project

- Figma
- UXtweak
- Treejack

- To remodel the current information architecture of Goodreads so that it is simple and easy to navigate.
- Conduct user research to capture the users' mental model in deciding which tasks naturally group together.
- Wireframed redesign in Figma

### Profile Website

Fall 2020

- HTML
- CSS
- Visual Studio Code

- Coded my personal website from scratch using HTML and CSS
- Hosted on Github
- <https://jesslelu.github.io./index.html>

### Girls SySTEM Mentorship Program

Fall 2020

Marketing Director

- Photoshop

- My role was to establish a brand image for our organisation that effectively communicates our vision
- Designing posters, tee-shirts, logo
- Manage social media accounts
